

YOU ARE INVITED TO COMPLETE THE PRAISE SURVEY

"Perception of doctors Regarding Antirheumatics in pregnancy and breastfeeding: advice, Information and patient perSpEctives", promoted by the EULAR Study Group on Reproductive Health & Family Planning (ReHFaP Study Group).

This survey aims at exploring HCPs perspectives about the shared decision making regarding the use of anti-rheumatics in pregnancy and breastfeeding:

If you have not already completed the survey, please take

7 minutes to fill it out
